let's create
POTTERY

- Create your own ceramics.
- Paint, or apply texture on it.
- See it in your own room!
- Share it with your friends.
- Complete the quests.

free your CREATIVITY

PRO! "Let's Create: Pottery" making ceramics has never been more simple and fun! Become a true artist and create "one of a kind" pottery items and show them to your friends! Throw the clay on the wheel, release all your artistic talents and take handfuls of dozens of materials available in order to create your own design!

Even when you glaze and fire your very first pot you will feel accomplished and relaxed as pottery is the best way to relieve your everyday stresses and find your inner peace. An amazing, therapeutic and uplifting experience you can enjoy with your family and friends!

CorelDraw is a software program for editing vector graphics. Vector graphics are created in graphics packages and consist of objects. Each object can be edited separately, meaning that the shape, colour, size and position can be changed.

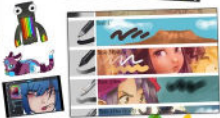

The software is a robust graphics suite, providing many features for users to edit graphics. These features include contrast adjustment, colour balancing, special effects like borders to images, and support for multiple layers and pages.

CorelDRAW

Erasmus+

KRITA

A free painting software in 2019

techradar

* Krita is a professional FREE and open source painting program for PC.
* It is made by artists that want to see affordable art tools for everyone.
* It can be used to create concept art, texture, illustrations and comics.
* It works on different operating systems.
* Krita is chosen as the best free painting software in 2019 by techradar.

Canva

Canva is a graphic design platform, used to create social media graphics, presentations, posters, documents and other visual content. The app includes templates for users to use. The basic functions of this platform is free to use

Canva is so quick and easy to use! They've got hundreds and hundreds of templates that make designing graphics super easy. You just choose a template, plug and play, and your design is ready to go.

InShot

InShot is a free mobile application that you can download on your Windows to create or edit videos and photos. The program features an array of tools that can help you with all your editing requirements.

InShot includes options like trim, effects, enhancements, audio editions, and transitions that turn home videos into professional-looking clips.

PosterMyWall is a fast and easy tool that empowers you to create your own marketing graphics and videos - no graphic designer required. With PosterMyWall, you can get the word out about your business with amazing social media graphics, high-quality videos, posters, email campaigns, digital signage content, and more.

postermywall

With its friendly-user interface, 685,000+ ready-made design templates and 500+ email templates, easy team collaboration, handy tools including one-click resize and remove background feature, and easy publishing and sharing options, anyone can design like a pro on PosterMyWall.
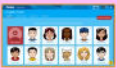

Pixton is an online comic maker that allows teachers and students to easily create and share comic strips. Pixton comic maker is simple and easy to use. Everything is pre-designed: characters, backgrounds, faces, outfits, actions, effects, panels, bubbles, and more. You simply choose background, add characters, insert bubbles with your text, customize the look and feel of your characters and click done.

Prezi is a multimedia presentation tool that can be used as an alternative to traditional slide making programs. Instead of slides, Prezi makes use of one large canvas that allows for panning and zooming to various parts of the canvas to emphasize the ideas presented there.

Song Maker is all about making songs. It's essentially an easy to use sequencer that lets you draw melodies in the browser

Pixton

Prezi

In order to use Song Maker, you don't have to download any application or software, you just look for Song Maker, and you can directly use it from your Google Chrome browser. It's that easy!

The comic picture below is created by Pixton, showing some teachers from different countries, as a part of our project "Art is Everywhere"

Prezi is completely free to use. It runs entirely through your web browser, meaning there will be fewer compatibility issues than with other programs like PowerPoint. Your prezi will always look the same, no matter what computer you're viewing it on.

PREZI TEMPLATES

Song Maker

Toontastic

You create a cartoon character and animate them. Even using your own face with a character!

This application is for future authors, directors, musicians, inventors, and anyone else who wants to turn their brilliant ideas into 3D cartoons.

With Toontastic 3D, you can draw, animate, and narrate adventures, news stories, science reports, and all your other interesting ideas.

PAPERAMA

Enter a beautiful **ORIGAMI** world and bring it to life!

- Fold the paper sheets to create origami figures
- Work as accurate as possible to fit the form
- Don't use too many folds!

Enjoy how a wonderful origami world comes to life

- Amazing 3D folding effect
- Lovely Soundtrack
- More than 70 puzzles
- Smart Hint System

Capture frames using camera on your device, each one a bit different from previous one. Then you'll get a great stop motion movie! You will be able to edit, rearrange or delete frames. You can save your video and also share it with your friends. This is a great tool for art classes, especially to work with clay or papercraft. Available for Windows, iOS, Android.

The project "Art is Everywhere" has been started in 2019, coordinated by Czech Republic, including partners from Bulgaria, Italy, Spain, Portugal and Turkey (2019-1-CZ01-KA229-061326). The aims of the project are using art and artistic methods to overcome language barrier, achieving more effective inclusion of students in education and revealing individual and cultural differences.
